

CJK Workshop 2014

June 18, 2014

The University of Tokyo, Tokyo, Japan

13:00-13:05 Opening

13:05-14:20 Session I

13:05-13:30 Prof.Jianping Wu (Tsinghua University)

Engineering and Technology Innovation of the NGI Architecture

13:30-13:55 Dr.Hiroshi Mano (University of Yamanashi)

Standardization of emergent Wireless LAN technology and evaluation

13:55-14:20 Prof.JongWon Kim (GIST)

Playing with Software-defined infrastructure

14:20-14:40 Break

14:40-15:55 Session II

14:40-15:05 Prof.Gongxing Sun (IHEP, Chinese Academy of Science)

Network and HEP computing in China

15:05-15:30 Prof.Yuji Sekiya (Univ.of Tokyo)

Overviews of Cloud Computing and SDN activities in WIDE Project

15:30-15:55 Prof.Jun Bi (Tsinghua University)

Research Progress of the “Future Internet Architecture and Innovation Environment” Project in China

15:55-16:15 Break

16:15-17:30 Session III

16:15-16:40 Prof. Taekyoung Kwon (SNU)

CCN Research Activities at SNU

16:40-17:05 Prof.Daisuke Miyamoto, (Univ. of Tokyo)

Boosting Human: Cognitive Approach for Anti-Phishing

17:05-17:30 Dr. Taesang Choi (ETRI)

IRIS-CoMan: Scalable and Reliable control and Management for SDN-based Large-scale Networks

[ACCESS MAP]

Engineering #2 Building

- Date : June 18th (Wed)
- Time : 13:00 – 17:30
- Venue : EEIC Room #2, 3rd Floor of Engineering #2 Building in Hongo Campus, The University of Tokyo
(東京大学 本郷キャンパス 工学部 2号館 3F 電気系会議室 2)
- Campus Map : Building Number **73** is the Engineering #2 Building on the [MAP](#).
- Contact Person : Hiroshi Esaki (hiroshi@wide.ad.jp, +81-90-1547-1495)
